

A WB initiative on Demand for Good Governance

- The WB wants to experiment forms of Demand for Good Governance (DFGG) in the Education Sector
- DFGG is the ability of citizens, civil society organizations and other non state actors to hold the state accountable and make it responsive to their needs
- More in details, we are asked to setup a project to assess procurement indicators of primary schools in a rural area of Mozambique

Some Requirements

- We want to:
 - collect data about the status of primary schools in Moamba, a rural area of Mozambique
 - collect information from parents about services delivered in the area
 - analyze data and provide a report
 - make the “raw” and analyzed data available on the internet

Assignment

- Refine project goals
(possibly asking the customer = me)
- Write the feasibility study/scope document indicating project structure, deliverables, milestones, project duration
- Write a Gantt chart
- Convince your peers yours is the best project. Some criteria include:
 - well thought
 - simple and clear goals
 - feasible
 - ...
